## Shapes in Equilibrio!

**While we played:** Pick a tower you completed that was challenging.

We picked Tower # \_\_\_\_\_ (from puzzle book)

Two ideas about **shapes** that made it challenging:

1.

2.

One math idea we've talked about in math class that we saw in a block in our tower is:  
(use words and drawings)

**After we played:** Finding all the squares.

Name of piece: \_\_\_\_\_

# of squares on it: \_\_\_\_\_

Use the picture to point out all the squares.

Name: \_\_\_\_\_

Name of piece: \_\_\_\_\_

# of squares on it: \_\_\_\_\_

Use the picture to point out all the squares.

Name of piece: \_\_\_\_\_

# of squares on it: \_\_\_\_\_

Use the picture to point out all the squares.

Name of piece: \_\_\_\_\_

# of squares on it: \_\_\_\_\_

Use the picture to point out all the squares.

Are the squares the same or are they different? How do you know?

Explain how you know the shape is a square. Use pictures and words.
