

Name: _____

I'm an Expert at QUARTEX!

Number of times I've played QUARTEX:

When your turn starts, how do you decide what piece to play? Use drawings and words.

Look at the board below. Let's say you're going to put your next piece in the spot where the arrow is pointing. Draw a picture of at least two different pieces that would fit there. Explain why both would fit.

What strategy helps you get a high score in the game? Is there something you do during the game to get a high score?
