I'm an Expert at FARKLE!

Number of math club times I've played FARKLE:

Other places I've played FARKLE are:

If you rolled triplet threes (300 points) on your first roll, would you stop rolling? Why/why not?

Look at the FARKLE score card below. Why is two triplets given such a high score?

FIVES/UN 5 = 50 pts	ONES/UN 1 = 100 pts	
= 300 pts		4 of any number = 1,000 pts • Un carré (4 dés identiques) de n'importe quel chiffre = 1 000 pts
= 200 pts		5 of any number = 2,000 pts • Une quinte (5 dés identiques) de n'importe quel chiffre = 2 000 pts
= 300 pts		6 of any number = 3,000 pts • 6 dés identiques de n'importe quel chiffre = 3 000 pts
= 400 pts		1-6 Straight = 1,500 pts • Une suite de 1 à 6 = 1 500 pts
= 500 pts		Three pairs = 1,500 pts • Trois paires = 1 500 pts
= 600 pts		Four of any number with a pair = 1,500 pts • Un carré (4 dés identiques) de n'importe quel chiffre et une paire = 1 500 pts
		Two triplets = 2,500 pts • Deux brelans (un brelan = 3 dés identiques) = 2 500 pts

ME	YOU	PLAYER/JOUEUR	PLAYER/JOUEUR	PLAYER/JOUEUR	PLAYER/JOUEUR
600	0				
850	700				
1750	1300				
1750	1850				
2750					

Use the same score card. If YOU rolled triplet fives and two 1s, what would be your new score? Show an interesting strategy to find the answer.
